

Connecting unidata ICW-1000G to 3cx

Set up the extension you want to connect the phone to in 3cx

Connect phone to wifi

Press soft key for *WLAN*

It searches wifi network

Choose wifi network, Insert wifi password

Press *connect*

Find ip address

Press *down* button

Press *ok* on *status*

Press *ok* on *My Phone Info*

Press the *right* button twice, You'll then see the ip address given to the phone.

Set up Phone

In a browser type ip address + *:8080*, eg. *192.168.1.50:8080*

This will bring up ui for phone

Type *000000* to login

In the Top right hand corner click *Setup*

ID = admin

PW = *000000*

On the right handside click *Network tab*

And then in user account type

Display Name = ext number

Phone Number = ext number

User ID = ext number

User Password = Authentication password (found on Extension's general page)

Then press *change values*

Then on left hand side select *Server Settings*

Enter IP address of pbx server in *1st Proxy*, Press *change value*

On the right hand side press *Configuration Tab*

On the left hand side press time

Enter your time details including time zone

Press change values
